(U) Symbols and Logos Used by Pedophiles to Identify Sexual Preferences

(U) Pedophiles, to include those who sexually abuse children as well as those who produce, distribute, and trade child pornography, are using various types of identification logos or symbols to recognize one another and distinguish their sexual preferences. To specifically indicate the pedophile's gender preference, members of pedophilic organizations encourage the use of descriptions such as "boylove", "girllove", and "childlove."¹ These symbols have been etched into rings and formed into pendants, and have also been found imprinted on coins.

(U) The BoyLover logo (BLogo) is a small blue spiral-shaped triangle surrounded by a larger triangle, whereby the small triangle represents a small boy and the larger triangle represents an adult man.ⁱⁱ A variation of the BLogo is the Little Boy Lover logo (LBLogo), which also embodies a small spiral-shaped triangle within a larger triangle; however, the corners of the LBLogo are rounded to resemble a scribbling by a young child.ⁱⁱⁱ Images of the BLogo and LBLogo symbols are depicted below.

(U) **Boylover.net banner**

(U) Research of the unusual marking on the coin concluded that the BoyLover logo (BLogo) was imprinted on the front of the coin, and the phrase “Kids Love Pedos” was engraved on the back of the coin. (*Coins depicting the BLogo are pictured on page one.*) The appearance of the BLogo on coins is another method used by pedophiles to announce their sexual preferences.

(U) Pedophilia symbols on jewelry, coins, Web sites and other effects are indicative of advertisement methods used by child sexual predators to promote their cause. Pedophile activists advocate for the social acceptance of sexual relationships between adults and children. These organizations seek to decriminalize sexual relationships between adults and children and to legalize child pornography based on their belief that children have the ability to consent to sexual acts.

(U) Identical or similar jewelry and symbols as described in this intelligence bulletin should raise suspicion of possible pedophilia activity.
